

The Stacey Long Story

Part 2

In, The Stacey Long Story, Part 1, I concluded with a query regarding the education of our children for the purpose to highlight patterns of thinking & behavior, unbeknownst to many of us (African descent) that do not serve our best interest, but in actuality serve the interest of others more so.

It appears, this is accomplished in part from our civic irresponsibility to exercise our right to suffrage that some of our forebears paid the ultimate price & innumerable others were brutally assaulted & endured long suffering unsurpassed to acquire this right once denied.

To date, this not only dishonors all those that fought in our struggle for liberation & basic human rights, but this also illuminates the depths of the irrefutable psychological damage deliberately perpetrated against us in the abject violent institutions of chattel slavery.

Our conditions as a people is a direct result of the "Greatest Crime" ever committed against a people, that was committed against us, "Chattel Slavery" and the effects of this abject evil still effects us in perpetuity aided by us in our ignorance, extant.

Chattel slavery being inherently evil & violent was used to indoctrinate the ideology of our captors, masters, therefrom, fear of the whip, genitalia mutilation, burning, lynching or other heinous acts "never" before recorded in history.

The Black African Man & Woman were psychologically & maybe even more devastating, were spiritually broken to capitulate to a subjugated status as inferior by these barbarous acts of our European captors.

The aforementioned also encompassed bearing the abject pain of families being ripped apart and sold like cattle, the Black Woman and their female children being raped and experimented on while the Black Man was forced to endure these bestial acts unable to prevent or protect his family from these atrocities.

Today, as a result of our failures to vote amongst other dynamics, representatives are primarily elected and or appointed by others to serve "their" interest and not our own or the best for our society.

Our children's schools continue to be de-funded as well as the resources to aid those impoverished to ensure perpetuity of the school to prison pipeline, building prisons and providing employment in poor white communities, as the one I'm in this very moment in Ashtabula County, the poorest community out of all 88 counties in the State of Ohio.

Civics & all essential curriculums has been removed from the urban schools; "STEM" Science, Technology, Engineering and math.

This is occurring as technology is evolving at warp speed, and sufficiently funded communities (those that classify themselves as white) are teaching & preparing their children for the future to write computer codes in kinder garden, a vocation that is now being taught in the equivalent of just one semester of school with a starting salary of \$85,000.00 annually.

If we are to survive and prosper as a people, it is imperative we control the education of our children if we intend to control our destiny.

Therefore, we must educate ourselves of our history and the systemics & institutionalized morass (racism) designed to prevent us from being a whole and productive people. For he who controls the past controls the future.

Understanding the exceptional need for us as people to possess certain factual knowledge, especially our own historical narrative, that without will ensure our continued status on the lowest rung of the socioeconomic ladder and premature death due to the ever increasing violence we perpetrate on each other.

The beloved, Honorable Minister Louis Farrakhan in his infinite wisdom once stated, "No man can be a man without proper knowledge, he is not a man because of his male organ, if so some animals would be more man. Man's very nature was created with power (mental ability) to rule & have dominion. Knowledge separates man from beast. Deliberate deprivation causes harm of immense proportion, slavery had to "CRUSH" the male & render him perpetually dependant. Man's greatest gratification (should) come from productivity from knowledge, that brings thought into fruition. Stunted knowledge causes gratification (to be persued) in one's lower nature."

In my humble opinion, we all can bear witness to that, can we not? "My people are destroyed for a lack of knowledge... Hosea 4:6-10.

One of my goals in sharing my story, I will introduce periodically certain literature essential for our mental, spiritual liberation & health to change our condition, that I believe every "conscious" black person in America "must" read that will change our life circumstances and will assist our present trajectory towards premature death and destruction.

The first book I believe is a must read is a book titled, Post Traumatic Slave Syndrome (PTSS) by, Dr. Joy DeGruy.

This sister has done some remarkable things, starting with identifying maladaptive behavioral issues that we perpetuate that can be traced to slavery.

In The Stacey Long Story Pt 3, I will introduce more on Dr DeGruy. In addition, I will also introduce a plan I have to assist in the growth and education (programming) of our children.

For now, research, Dr Joy DeGruy dissertation for her doctorial of Physosophy in Social Work & Social Research titled: A Dissertation On African Male Youth Violence: Trying To Kill The Part Of You That Isn't Loved."

Lastly, I would love to send my warmest wishes to the founder of Oyezxx Clifton Jackson and the Oyezxx family. You have accomplished a remarkable thing. Sincerely, thank you for the Oyezxx website & Oyezxx social media platforms.
