

Peace and Prosperity Queen D

Pardon My tardy response. You are always good. I neglect to charge My device and check the kiosk. A three day fast is best done with water and prayer. You already knew that by the sounds of it. I know it sounds like jail talk but, it's the real thing. Did You see Ohio has limited the scope of abortion and Alabama has banned abortion completely even in incest and rape cases. I know Your views in politics however, this concerns Women's Rights for generations to come. These and critical other issues are the kind that need careful analysis. I am only One. I will need the support of a Nation to combat these imperialistic Westernize male dominated ideologies. All Women must understand the severity of these implements put in place. The Legislatives have set Women back one hundred years. A government that dictates choice is a Dictatorship. Our sons must Know the Rights of Women are sacrosanct if We are rise above tyranny and oppression. There is two sides to every coin and I consider both with ardent compassion.

Nevertheless, I must stress choice above all. Every cognitive Being shall make decisions free of intimidation, coercion or force. Otherwise, it is not a decision made from choice but rather, a directive carried out through orders. Now comes the question,.... Are you a citizen of a free country or a soldier in a military. Because the military is the only place where a Woman, while serving if she becomes pregnant, cannot terminate the pregnancy because, it is the property of the United States Government.

Those are some sour apples!
Peace and Harmony
