

So its been a minute since I wrote to the world and on this occasion I want to tap into the way the system breeds hate when an individule is overstanding in his/her mistakes or wrongs.

Like a child when he/she acts up they get punished by the proper athority (mom&dad) but in this instance its the judical system. Men an woman a like who find themself in this area of punishment has a decision to either better themself or stay uncorrected. Me I chosed the first option and like several of other SOLID individules, they have chosen to do the same. The parole borad is a function designed to keep the understood slienced, meaning that for those who find themselves (younger or adult) in a situation, who could use proper guidance, which a brother or sister who has delt with the same struggle could help them overcome. By placing there knowledge on the line for evaluation by the struggling community or individule to analyze.

Them brother or sister who have the keys to overcoming the system by rational thinking, have a froce against them and it seems to be uncureable, if its coming from the eyes of the Parole Board. Why keep punishing a person for a mistake or crime that ocured 15-20 years ago if shown improvement? Its called Correction and Rebilitation for what reason then? Allow that growth to touch the inner citys or the misunderstood, or simply put the ignorant, so that less mistake can occur within our human society. Somebody has to teach the ignorant, and if the ones who have never been through it cant reach them, maybe the ones who have can.

As you all know who has read my story, I'm still incarcerated and I have been for 10n years now, and I have blood relatives who are here with me now (1) and he has taught me so much that I dont think that I could have made it in a level 2 prison, coming from a level 3-4. Physically, mentally, and spiritually he has elevated to a place that has shocked me. But his family, kids, and friends will not have the luxury I have to know the new him, cause the Parole Borad wont see past 1997-98 crimes that has nothing to do with his incarceration now.

We need voices to speek for us, if our actions that got us here, and kept us here, changed and is visibile seen through the methods given. Why cant a second chance a life be granted? There are stipulations place on those who are released anyhow, so what is the real reason? The only thing I can see is that they dont want those who overstand the emotional turmoil, and financial turmoils that plague the inner citys, to open the eyes of those who are ignorant to it all. This is a struggle to open the eyes of the youth, and give hope to the future. Cause I cant honestly say if I didnt come to prison that my mental function would be where it is today. And that should say alot.

Until next time!!
