

## It's Crazy How Loyalties Rotate

Can you understand why we live  
in such a selfish society  
our leaders have lied to our ancestors  
and they continue to like to you and me –

I am a proud American  
chasing America's powers and greed  
knowing our history and gangster has proven  
loyalties will fluctuate at light warp speeds –

so for every new mother there's a new umbilical cord that feeds  
we've all heard stand for something or go for anything  
but it seems as though no one ever takes heed –

in the hood we grind form nothing and alleged army with old hammers  
knowing if we ever make it to Trump statuses  
the corruption will be protected by all the glamour –

so the bigger pictures are better understood  
when we start to open our eyes  
I'm talking the rebirth of wisdom  
many years after our birth and initial cries –

so don't judge us cause we're like our government  
at the time loyal to our choices  
while the government is portraying bicentennial statuses  
we're burning like hell screaming with endless voices –

I went 12 rounds with the state and the feds  
Oyez22 I'm a survivor  
I beat life with 12 running concurrent after trials  
so I'll converse with the streets until I'm retired –

even so to this day I remain loyal  
to my choices even those in the past that were never loyal  
butt naked and afraid questioning if sterilization  
actually takes place when the temperature boils –

to the casket drops I'm 1000% forever official  
but its time my loyalties rotate  
with that being said hate will never win  
because love will always pulsate –

so without question racial profiling, corruption and hate  
from any spectrum is cancerous killing growth  
before we are given the Heimlich maneuver  
it's clear selfishness and greed would rather see us choke –

see momentary worth will never supersede  
the predominant waters across our land  
although our definitions of family and worth may vary  
it's a fact suckers and cowards move hand in hand –

so even though loyalties may rotate  
professions, money and power shouldn't define our persons  
if you ever classified me as nothing  
it's my pleasure to finally prove you wrong after endless rehearsing –
