

Salena Gomez

Selena on the surface you are a drop dead beauty
the way you excel in our judgmental society
is truly special when it seems like you've grown
in the public eyes since you've work diapers and booties –

from your Disney days you've unquestionably grown into your own
your charismatic style and presence exemplifies your footprints
that social media can only follow but never clone
if I have to follow you a lifetime I'm ready to document a billion miles flown –

congratulations on Netflix 13 Reasons Why
as fans we will forever love you
the way you love philanthropy work
which the humility aspect of you just may be
your most valuable side –

see tabloids can't even hate on your class and humbleness
your perseverance and internal qualities will always remain true
Selena simply thank you for being you –

and don't ever forget
this is just some of the reasons why
even your haters love you –
