

The Pot Calling the Kettle Black

There are way too many double standards tainting America
not only is it evident it breeds contentment and hate
to so society appears to be too close to hysteria –

the double standards are labeled like a variety of sandwiches
our judicial formulas promotes procedures over merits like biasness
an average citizens are speaking different languages –

so as a society we must recalibrate our attentions and visions
look at President Trump's blatant disregard of perceptions
or constitutional protections if only we stop, look and listen –

for centuries as Americans we've poisoned cultures and generations
now our community growth is malnourished lacking a proper diet
so be mindful the body doesn't function properly without the proper vegetation –

so how is it possible that procedures can ever supersede merits
especially when theirs a prima facie showing
which is the equivalent of DNA overdosed on carrots –

not only is the American judicial system flawed
once the cameras are turned off actions does not match conversations
which contradicts the formula sculpturing laws over chaos –

how is it expected for anyone to stop touching and smearing the walls
when we are forced to live Trump's quote,
"Don't get mad at me because I find the loopholes in the laws." –

see your dirt is no cleaner than mines that's an actual fact
understandably we all want that big house and a Maybach
however being the pots we should never call the kettles black –
