

Trapping Freestyle

I flood building with dreams of making a killing
pressing quarter b*t*hes like Marvin Gaye's sexual healing –

in traffic dollar billing like the streets without feelings
top series big motor custom package with gator and crush linen –

extended reaches switching gates after contractual leases
pulling tons from the darkness of these beaches –

murder you leaches to fulfill my dreams
high regards for calicos with laser beams –

God je-nile in this hellish dimension, the cops is watching
fuck the penitentiary sitting rotting, friend or for your never forgotten –

the streets are watching they're forever curious
no signals switching lanes like the Fast & Furious –

applying pressures, my moms gave many lectures
the art of war-how to duck our oppressors –

we are either predator or prey
this life is survival driven
define your passage regardless the cost of living –

the things we'll do by any means to socialize
the more I look up in the sky the going rate is trap or die –
